Assessment

Assessment of Leaving Certificate Accounting takes place through a final exam in June. Students will have the option of sitting the exam at a higher or ordinary level. Both papers have the same topics and number of questions for choice. The exam will focus a question on a mixture of financial and management accounting principles

Accounting

St Tiernan's Community School

What accounting is about

Leaving Certificate accounting provides students with the knowledge, understanding and skills in accounting and financial management necessary for managing personal and basic company accounts. The learning experiences in accounting develop students' organisational, logical thinking, planning and problem-solving skills for their future life, work and study. It also develops their numeracy skills within the context of business and enterprise.

Accounting has become an important part of young people's education, not just for socio-economic reasons but also because of the ever-increasing involvement of citizens in various roles in the running of clubs, societies and businesses of all types.

Our Textbook

Accounting is a business studies option within the Leaving Certificate programme. It covers aspects of business and social life which are not dealt with in any other subject in that programme. It is concerned with the preparation, recording, extraction, presentation and analysis of financial information for the purpose of making economic decisions.
